RE: Important Security Notification

Dear [First Name] [Last Name]:

Lee Valley Tools, Ltd. ("Lee Valley") recently discovered an incident that may affect the security of your personal information. We greatly value our customers' privacy, and we wanted to quickly notify you about the incident, measures we are taking in response, and steps you may want to take to guard against identity theft and fraud.

What Happened? On March 12, 2025, we became aware of suspicious activity on a cloud server that supports our website. We immediately launched an investigation, engaged cybersecurity experts, and took steps to secure our website and customer data. While our systems do not receive or store credit card information – card information is transmitted directly to the card processor from the user's device – the investigation determined an unauthorized third party was able to capture certain credit card information entered into our website between October 8, 2024, and March 12, 2025. After looking at the affected data, on March 28, 2025, we determined some of your personal information was impacted.

What Information Was Involved? The investigation determined the following types of information related to you was impacted during this event: name, address, credit card number, expiration date, and CVV code.

What Are We Doing? We take the security of personal information very seriously. Upon learning about this incident, we promptly took steps to investigate, assess and enhance the security of our website, notify law enforcement and inform affected individuals.

As an additional precaution, we are offering you access to 12 months of complimentary credit monitoring and identity restoration services. Details of this offer and instructions on how to activate these services are enclosed with this letter.

What You Can Do. You can enroll in the credit monitoring services we are offering. Please review the enclosed information on what you can do to safeguard against possible misuse of your information. Your credit card company or bank may also issue you a new card, if they have not already done so. We also encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your account statements and monitoring your free credit reports for suspicious activity and to detect errors for the next twelve to twenty-four months and to report suspected identity theft incidents to the relevant institution.

For More Information. We sincerely regret that this incident may have affected you. Cyber threats are an ongoing challenge and Lee Valley is, and always has been, fully committed to safeguarding personal information. We have arranged for representatives trained in responding to cyber security incidents and in the process of enrolling in the credit monitoring to be available to you. If you have further questions or concerns, or would like an alternative to enrolling online, please call [Experian TFN] toll-free Monday through Friday from 8 am – 8 pm Central (excluding major U.S. holidays). Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order a free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. Consumers may also directly contact the three major credit reporting bureaus listed below to request a free copy of their credit report.

Consumers have the right to place an initial or extended "fraud alert" on a credit file at no cost. An initial fraud alert is a one-year alert that is placed on a consumer's credit file. Upon seeing a fraud alert display on a consumer's credit file, a business is required to take steps to verify the consumer's identity before extending

new credit. If consumers are the victim of identity theft, they are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should consumers wish to place a fraud alert, please contact any of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in a consumer’s name without consent. However, consumers should be aware that using a credit freeze to take control over who gets access to the personal and financial information in their credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application they make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, consumers cannot be charged to place or lift a credit freeze on their credit report. To request a credit freeze, individuals may need to provide some or all of the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if they are a victim of identity theft.

Should consumers wish to place a credit freeze or fraud alert, please contact the three major credit reporting bureaus listed below:
